

The goal of **Multilogistics**, a company considered a reference in the world of freight forwarding and logistics, with more than 20 years' experience in the sector, is to provide **innovative services of excellence**, to enable customers to be more and more competitive and ahead of the market. An evolution that has led us to become a **single point of contact** for all **logistics and transport** needs.

The growth of Multilogistics has never made us lose **sight of the human side** and has strengthened in us the desire to create a true partnership with companies, centered on mutual trust. **Dialogue** is the basis of success: we pay attention to customers' needs, even the most complex ones, to provide the best tailored solution. In this way, we offer the solidity of a large company, with the flexibility of a company strongly rooted in its territory, also ensuring a safe and comfortable working environment for our employees, our true asset.

We are constantly looking to the future. **Sustainability** and **digitization** are our main keywords, which is why we select our suppliers with a sense of responsibility, favouring those who adopt **innovative and environmentally friendly technological solutions**.

**Our customers' ambition become reality**, also through privileged relations and contacts with the world's leading operators, to ensure accurate service for air, sea and land shipments, integrated with logistics support at an international level. All this to contribute to the **growth of the company** and put our customers in a position to become leading players their target market.

Listening, reliability, maximum precision, green approach and special emphasis to innovation: this is the **Multilogistics' recipe** to face the near future.

**MULTILOGISTICS S.P.A.**
